Roles of Digital Agency

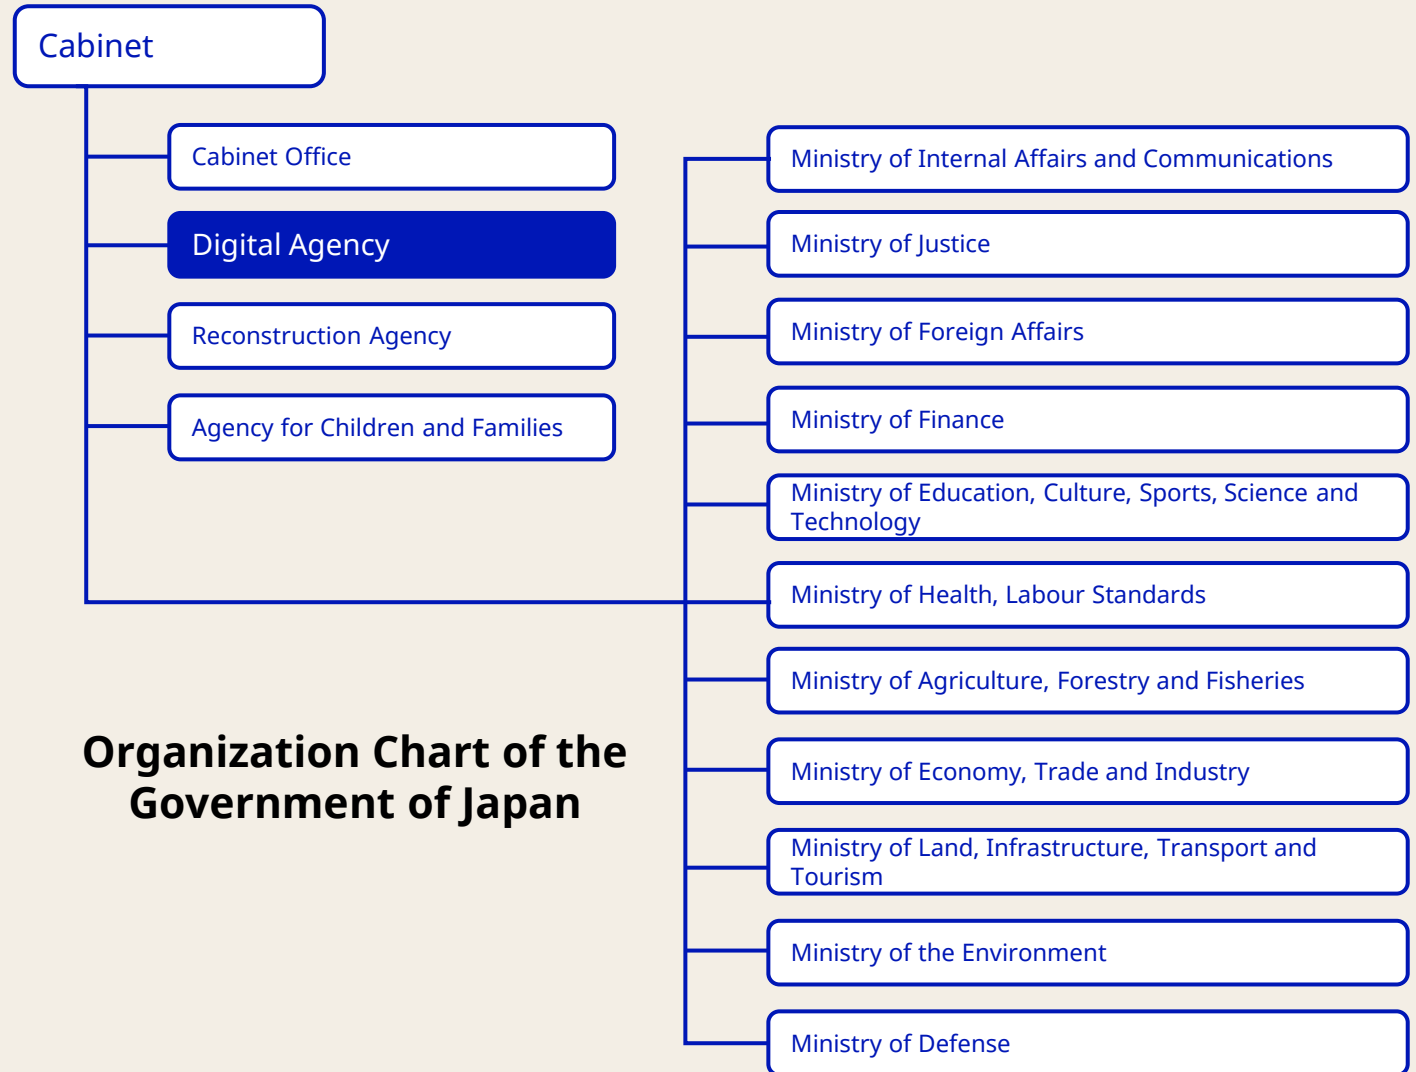

Leader and coordinator roles for government digital transformation

The Digital Agency is on par with ministries and is headed by the Prime Minister. With the aim of promoting digitalization swiftly, it serves as a command tower for each ministry, including budgeting, planning, supervision, and strong authority, as well as a comprehensive coordination role, including recommendations, to break down the vertical divisions that are hindering it.

Budget of government systems

over **500** billion yen

- Project management - more than 1,000 government systems
- Budget management - over 500 billion yen (≒3.3billion US\$) government systems
- Strong advisory authority to each government ministry and agency
